## Case Study

# Nurses Laptop Cart for Assisted Living Company

| WITH SECURE & DURABLE STORAGE

### CLIENT:

National Senior Living  
Company

### SITUATION:

Nurses need carts that  
combine laptop security  
with a customized storage  
solution

### SOLUTION:

Nurses Secure Laptop  
Cart from First Products

## PROCESS

A National Senior Living organization contacted us to create a laptop cart with a locking drawer that met their aesthetic and budget needs for their group of Assisted living facilities. They were transitioning to laptop computers and needed mobile carts that provided laptop security as well as secure storage.

Collaborating with the facility's Wellness Director and the Purchasing Manager, First Products design engineers determined the range of laptop sizes, storage needs and other specifications to create a mobile secure laptop cart to meet the unique requirements of the client.

The easily portable, yet durable, cart included white powder-coated steel surfaces. First Products designed the custom cart and presented the initial design for approval to go to the Demo cart stage. With Nursing staff feedback for increased storage, the final demo cart was created and we received client approval for manufacture. To accommodate two large locking drawers, a solid base with 4 casters was used for exceptional stability.

The Nurses Laptop Cart was built by First Products to fully meet the unique design specifications of the Senior Living client. The client ordered sufficient quantities for several senior living locations in their group.

## OUTCOME

The custom Nurses Laptop Cart provided a mobile solution for the nursing staff to care for residents, use their laptops efficiently while deterring theft or damage, and storing supplies securely.

The Wellness Director and Nursing staff were highly satisfied with the custom solution, and Purchasing Dept. was pleased with the timely process and adherence to budget. Client looks forward to working with us again.

### Requirements:

- **Laptop Security** to minimize theft or damage from falls
- **Lockable Storage** for Nursing supplies
- **Durable parts** that will stand up to constant usage
- **Aesthetic & pricing** requirements

### Solutions Integrated

- **Purpose Driven Design** - Secured keyless steel laptop bracket
- **Storage** - Key-Lockable steel drawers (2) - hold up to 10lbs each.
- **Durability** - steel manufactured in the US to withstand constant usage
- **User Friendly** - ergonomic laptop use, with slide out mouse tray.
- **Sit to Stand Adjustable** - easy lift height adjustability for multiple users

# Finding Your Perfect Fit

We know healthcare and understand the demanding needs of technology deployment. We also understand that not one manufacturer can accommodate all of your deployment needs. Our expertise and knowledge of available solutions, and our commitment to you to find the perfect fit is our priority.
